

## **PHILLIPS-MEDISIZE AT INNOPACK/CPHI IN BARCELONA, SPAIN**

**Hudson, WI - (September 30, 2016)** – Beginning next week, Phillips-Medisize Corporation will present its combined capabilities on strategy, design, development and manufacturing of drug delivery devices, as well as, primary pharmaceutical packaging at InnoPack, in Barcelona, Spain, co-located with CPHI Worldwide. CPHI and its co-located events provide a unique environment where professionals from 140 countries meet, network, and share ideas and innovations in packaging and drug delivery technology for the healthcare industry.

During the event, Phillips-Medisize will present its end-to-end solutions where devices, connected services and drugs are completely integrated. Visitors will also learn about the Company's versatile product design, development and manufacturing solutions for rigid and flexible packaging. Combination products and connected health tools are in the spot of this year's exhibition at Phillips-Medisize booth in hall 2, stand 2K67.

"We have exhibited at this show for many years, and it has recently developed into a much larger show for the pharmaceutical market. We find this a great event to network and connect with customers from all over the world," commented Matt Jennings, Phillips-Medisize Chairman, CEO and President.

InnoPack will be held October 4-6, 2016 at the **Fira Gran Via in Barcelona**. Stop by to visit our Phillips-Medisize representatives in Stand 2K67.

### **About Phillips-Medisize Corporation**

Phillips-Medisize is a leading global outsource provider of design and manufacturing services to the drug delivery and combination products, consumable diagnostics and medical device, and specialty commercial markets. The company has annual sales over \$700 million with 80% of the total revenue coming from drug delivery, medical device, primary pharmaceutical packaging and diagnostic products such as: disposable insulin pens, glucose meters, specialty inhalation drug delivery devices, single use surgical devices and consumable diagnostic components.

Phillips-Medisize Corporation features a list of blue chip medical device, pharmaceutical and specialty commercial customers. The company partners with its customers to provide design and development services which accelerate speed to market of innovative products and then works with its customers to deploy advanced automated assembly and quality control technologies which reduce manufacturing cost while improving quality. The company's core advantage is the knowledge of its people to integrate design, molding, and automation to drive low cost and high quality manufacturing solutions.

Phillips-Medisize Corporation is headquartered in Hudson, WI, and employs over 4,300 people in 17 production locations throughout the United States, Europe, Mexico and China. The company also has a global design network with hubs in Hudson, WI and Struer, Denmark supported by facilities in North America, Europe, and China.
