

## **PHILLIPS-MEDISIZE TO PARTICIPATE IN PANEL AT PARTNERSHIP OPPORTUNITIES IN DRUG DELIVERY (PODD)**

**Hudson, WI - (October 19, 2016)** - Phillips-Medisize Corporation, is once again a sponsor and will present during a panel discussion at the upcoming Partnership Opportunities in Drug Delivery (PODD) conference in Boston, MA.

Bill Welch, Chief Technology Officer, will participate in the 'Device Strategies and Solutions for High Volume/High Viscosity Drugs' panel discussion on Friday, October 28 at 10:00 a.m. During this session, Mr. Welch, along with other panelists will discuss strategies and solutions for the challenges of delivering high volume/high viscosity drugs.

"When manufacturers are creating a drug delivery device, the patient's needs should be evaluated along with the requirements of the biologic or chemical molecule to ensure the device is designed to comfortably deliver medication while maintaining safety and efficacy," commented Bill Welch, Chief Technology Officer. "These insights, coupled with technological advances in manufacturing processes and human-centered design, are core to overcoming the challenges of delivering these lifesaving drugs."

The PODD conference brings together leaders in the pharma/biotech industry for networking and presentations on the latest drug delivery technologies, as well as insights on delivery and formulation needs. The ultimate goal of the conference is to inspire innovation and advancement of drug development and delivery.

The 26<sup>th</sup> annual Partnership Opportunities in Drug Delivery (PODD) will be held at the Fairmont Copley Plaza in Boston, on October 27-28, 2016. Phillips-Medisize representatives will be available in the exhibit hall at booth 14.

### **About Phillips-Medisize Corporation**

Phillips-Medisize is a leading global outsource provider of design and manufacturing services to the drug delivery and combination products, consumable diagnostics and medical device, and specialty commercial markets. The company has annual sales over \$700 million with 80% of the total revenue coming from drug delivery, medical device, primary pharmaceutical packaging and diagnostic products such as: disposable insulin pens, glucose meters, specialty inhalation drug delivery devices, single use surgical devices and consumable diagnostic components.

Phillips-Medisize Corporation features a list of blue chip medical device, pharmaceutical and specialty commercial customers. The company partners with its customers to provide design and development services which accelerate speed to market of innovative products and then works with its customers to deploy advanced automated assembly and quality control technologies which reduce manufacturing cost while improving quality. The company's core advantage is the knowledge of its people to integrate design, molding, and automation to drive low cost and high quality manufacturing solutions.

Phillips-Medisize Corporation is headquartered in Hudson, WI, and employs over 4,300 people in 17 production locations throughout the United States, Europe, Mexico and China. The company also has a global design network with hubs in Hudson, WI and Struer, Denmark supported by facilities in North America, Europe, and China.
