

Contributed to the success of 13 inhaled medicines that have helped over **10 MILLION PATIENTS WORLDWIDE**

28 YEARS of inhalation innovation

6,000 employees including **1,200+ ENGINEERS & SCIENTISTS**

7 R&D CENTERS

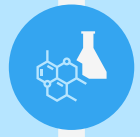

23 PRODUCTION FACILITIES

serving customers across U.S., Europe and Asia

60 YEARS OF INNOVATION

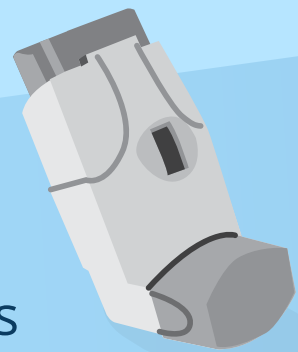

Formulation of small and large molecules, biologics, complex combination products, novel and generic products

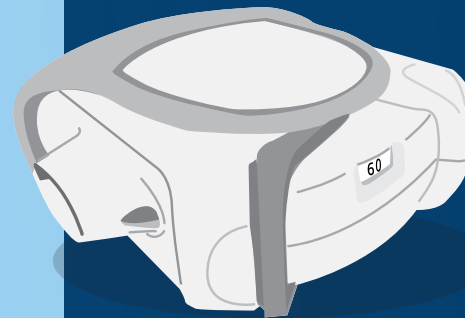

Pharmaceutical analysis

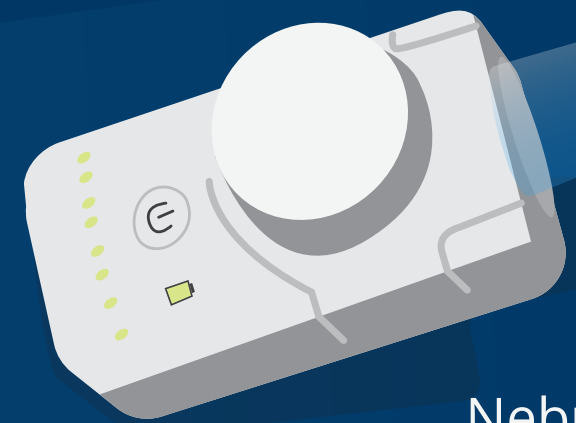

Nasal devices

Metered Dose Inhalers (MDI)

Dry Powder Inhalers (DPI)

Nebulizers

Device platforms

Process development and technical transfer

Manufacturing of drug product and medical devices for development studies and clinical trials

Legal and regulatory services

Legal and regulatory services

Assembly, labeling and packaging
180+ custom assembly lines

Scalable manufacturing and complex injection molding

- Dedicated NPI teams at each facility
- Manufacturing space 2.9M+ sq. ft. (269k+sq. m²)
- Class 7 & 8 clean rooms 500K+ sq. ft. (47k+sq. m²)
